Re: Public Comment Period and Public Hearing for Proposed Atlantic Coast Pipeline Compressor Station Northampton County

Dear Secretary Regan:

It is our understanding that no public comment period or public hearing is being planned on the air quality permit for the proposed natural gas compressor station in Northampton County. At the June 8, 2017 meeting with you and Department of Environmental quality staff, several attendees detailed concerns about Environmental Justice, cumulative air quality impacts for the entire pipeline, and the need for transparency and an open process around permitting for this pipeline and associated infrastructure.

On behalf of Blue Ridge Environmental Defense League our member chapters Concerned Stewards of Halifax County, Nash Stop the Pipeline, Wilson County No Pipeline, No Pipeline Johnston County and Cumberland County Caring Voices we are requesting that a public comment period be opened and a public hearing be scheduled if and when a draft permit is issued for this facility. Issuing this permit with no opportunity for public participation would be a grave injustice.

We appreciate your attention to this urgent matter.

Sincerely,

Therese Vick

North Carolina Healthy Sustainable Communities/ Coal Ash Campaign Coordinator
